Bachelor of Computer Applications
2022–Now
- Sarvodaya Kanya Vidhyalaya School
senior secondary
Completed in 2022
- Sarvodaya Kanya Vidhyalaya School
Matriculation
Completed in 2020

About Me

I am a dedicated and motivated BCA student enrolled at Delhi Skill Entrepreneurship University, showcasing a fervent fascination for the dynamic field of Web Development. I enjoy creating things that work well and looks good. Collaborating with others is exciting and helps me learn. I'm really eager to learn new skills and try new ideas. I'm actively seeking an internship to use my passion and skills for web technology on real-time projects for MACH IT. My goal is to apply for what I know to make the valuable contribution.

Project

Virtual Keyboard

November 2022 – December 2022

- The virtual keyboard developed using HTML, CSS and JavaScript.
- HTML and CSS used to create the user interface, while the JavaScript used to handle the keyboard and its working.
- The virtual keyboard had a standard QWERTY layout as well as options for different languages and layouts.
- It also has accessibility features such as support for keyboard navigation and screen readers, and the ability to customize the keyboard for users with disabilities.

Music Player

August 2023 – Present

- Employing HTML, CSS and JavaScript, I've crafted a music Player.
- The user interface is fashioned through HTML and CSS, while JavaScript is harnessed to control the player's behavior.
- Boasting intuitive playback controls, volume manipulation, and track details presentation, the music player boasts a modern design optimized for both desktop and mobile usage.
- The player also incorporates a playlist feature, allowing users to create and manage their music queue effortlessly.

Achievements

- Won prizes in slogan and Essay writing competition held on world's entrepreneurship day.
- I Participated in one day virtual debate competition held by Network Bulls and proudly earned certificate.
- Attended Data analytics using power BI workshop and gained skills as well as verified certificate
